IESD Funding Allocation 2014-2015

Organisation Name	Project Name	Theme	Project Aims	Project Coverage	Total Provisional Funding Awarded (£)
<i>VoiceAbility Advocacy</i>	Speak Out on-line - plugging the voices and views of people with Learning Disabilities into the heart of commissioning, planning and improvement.	Personalisation and Choice of Care and Support	Speak-Out On-Line (SPOOL) will provide a unique platform for people to engage with/consult us as people with learning disabilities (PWLD) over local/regional and national strategies, projects and services. They will work with clients to design accessible surveys for PWLD to complete on-line, as well as the resources to help people work off-line and/or in groups. It will enable better, richer and quicker engagement with PWLD and greater opportunities to improve and commission health and social care services.	East Midlands and East of England	272,060
<i>National Gamete Donation Trust</i>	Hub and Spoke National Sperm Bank	Delivering Better Health and Care Outcomes	In conjunction with Birmingham Women's clinic – a leading NHS clinic with a substantial number of ethnic minority patients- the NGDT will implement an innovative structure for recruiting sperm donors, testing and storing donations and distributing them to partner clinics who do not carry out their own recruitment or have limited recruitment capacity. It will benefits patients, both NHS and privately, of	West Midlands (Birmingham)	77,000

			all ethnicities across the UK, including same-sex couples and single women.		
<i>Tommy's</i>	Baby Be Smoke Free - a quit smoking service for young mums-to-be	Delivering Better Health and Care Outcomes	Building on Tommy's Baby Be Smoke Free pilot (Hill, 2013), they will develop a stop smoking intervention that is a) targeted specifically at young pregnant women b) non-judgemental c) convenient and cost-effective d) sustainable.	South East (Kent) and the North West (Blackpool)	246,788
<i>Donor Conception Network</i>	Improving support for donor conceived children and their families by implementing a comprehensive business strategy for a small national charity	Delivering Better Health and Care Outcomes	This one year project will review the charity's current business model and develop a new model to ensure the charity can be self-sufficient in the future without any need for external funding.	National	63,000
<i>NAM Publications</i>	Positive Partnership: improving the sustainability and impact of HIV information support	Personalisation and Choice of Care and Support	This project will develop greater partnership between NAM and England's HIV clinical services, improving the sustainability, impact and personalisation of HIV information support across England. The ultimate beneficiaries will be 30,000 people with diagnosed HIV.	National	96,500

<i>Penny Brohn Cancer Care</i>	The Wellness Package	Improving Long-Term Care and Support	PBCC's Wellness Package is designed to help improve the lives of those affected by the consequences of cancer and its treatments. The Wellness Package offers an introductory 'Living Well' course providing: healthy eating; gentle exercise; relaxation and stress management; emotional and psychological support; help managing impact on relationships – plus 'Follow Up' support over 12 months with a range of services.	South East London South West West Midlands Yorkshire and The Humber	188,858
<i>Samaritans</i>	Project title Samaritans Cruse Partnership - increasing support for those bereaved by suicide	Improving Public Health	Following a successful pilot, Samaritans and Cruse, working with organisations locally, will use their expertise and complementary skills to offer tailored, facilitated support groups to improve the emotional health of those bereaved through suicide. Evaluation shows this is achieved through the understanding, mutual support, and the safe, respectful environment the groups offer.	East Sussex Essex Coventry and District North Yorkshire Devon Tyneside	556,579
<i>Best Beginnings</i>	From Bump to Breastfeeding: working together to improve health outcomes	Delivering Better Health and Care Outcomes	Working collaboratively with health and social-care professionals, commissioners and parents in localities across NE, NW and Y&H regions, they will support the commissioning and embedding of bespoke versions of their "From Bump to Breastfeeding" DVD (FBTB). This will result in increased breastfeeding rates, improve health outcomes and associated cost savings. This has potential for sustainable, national roll-out, ensuring more families benefit from this resource.	North West, North East & Yorkshire & the Humber	246,878

<p><i>Fit for Work Team, The</i></p>	<p>Bridging the Gap- Addressing the Health Barriers to Employability</p>	<p>Delivering Better Health and Care Outcomes</p>	<p>Building on their experience of delivering the DWP/DH Fit For Work pilot, and as a specialist provider of holistic vocational rehabilitation, they will develop our model to provide a case managed, and thus integrated, multi-agency service, to enable unemployed people with health barriers to become work ready.</p>	<p>East Midlands and North West regions</p>	<p>1,430,357</p>
<p><i>West Mercia Rape & Sexual Abuse Support Centre</i></p>	<p>Rape Crisis Services</p>	<p>Delivering Better Health and Care Outcomes</p>	<p>The project will support the development of responsive models of commissioning systems and processes for the victims of rape and sexual violence:</p> <ul style="list-style-type: none"> • Providing specialised rape crisis services, advice, expertise and evidence to CCGs, local authorities and stakeholders • Promoting the voice of victims, exploring how personal budgets could be used to fund services • Evidencing the effectiveness of specialised rape crisis services, demonstrating the wider social impact • Exploring innovative funding models 	<p>West Midlands</p>	<p>245,925</p>

<i>Race Equality Foundation</i>	Effectively tackling violence and improving the health and care outcomes for the most vulnerable children and young people through the provision of the evidence based Strengthening Families, Strengthening Communities parent education programme in three regions across England.	Delivering Better Health and Care Outcomes	The 2012 DH funded review on the impact of violence on health and care outcomes identified factors that increase risk for children and young people, and also began to identify the protective factors that lower risk. By scaling-up and deploying our evidenced-based Strengthening Families, Strengthening Communities parenting programme (SFSC) that promotes the factors that lower the risk of children and young people experiencing violence, we will improve the health and care outcomes for vulnerable or disadvantaged children.	National	211,942
<i>Endometriosis UK</i>	Endometriosis Patient Support Groups aligned to Specialised Endometriosis Centres	Improving Long-Term Care and Support	This project will recruit and train volunteers to work alongside the Specialised Endometriosis Centres set up under NHS England Specialised Commissioning activities to create patient support groups and networks.	South East of England	188,807
<i>Care Leavers Association, The</i>	Caring For Better Health	Delivering Better Health and Care Outcomes	This project aims to improve the physical and mental health of care leavers of all ages by using the user voice to develop guides and resources to inform the commissioning and delivery of services. The aim is to ensure that CCGs and health	National	202,610

			professionals in a variety of contexts are more aware of the health issues facing care leavers and how to address them.		
<i>Amateur Swimming Association, The</i>	Dementia friendly swimming	Delivering Better Health and Care Outcomes	The proposal is to establish a framework for delivering swimming in 3 strands- relaxation, energy and exercise to music- for those people with dementia and carers. This will be achieved by working with 2 local authorities in Year 1, 6 large authorities in Year 2 and then 100 dementia friendly pools in Year 3.	National	1,319,149
<i>Community Catalysts CIC</i>	A Shared Lives incubator to deliver high-quality personalised outcomes for many more people, supported by social investment	Personalisation and Choice of Care and Support	This project will enable the Shared Lives Incubator to to rapidly respond to demand for expert investment and management support for SL schemes spinning out of local authorities and 'start up' schemes. In turn, this expansion of Shared Lives will enable more people to live full lives in their community, rather than living alone or in a care home.	National	81,765

<i>United Response</i>	Cornwall Dementia Hub	Delivering Better Health and Care Outcomes	An innovative, arts/activity-based, flexible and dynamic dementia support service located in central Falmouth (Cornwall), coupled with outreach early intervention dementia support (phase 2). It will use a café focus as a primary social 'tool' which will bring people together whilst providing person centred activities to maximise independence and promote good health, whilst minimising the deteriorating effects of dementia.	North West and South West	154,907
<i>CAMHS Outcomes Research Consortium</i>	Development of Outcomes-Focused Voluntary Sector Provision of Child Mental Health	Delivering Better Health and Care Outcomes	A key strategic aim is to ensure increased capacity for the voluntary sector. This grant would allow The Child and Adolescent Mental Health Services (CAMHS) Outcomes Research Consortium (CORC) to provide additional regional support to enable voluntary sector providers to effectively collect and use outcome data and for commissioners to make best use of these data to improve service provision for children and families.	National	1,419,803
<i>Cancer Research UK</i>	Oral Cancer Toolkit: A training tool to aid early detection and improved outcomes for oral cancers	Delivering Better Health and Care Outcomes	This proposal aims to use the successful model of the GP Skin Cancer Toolkit developed 2011-14 under the innovation strand to create a similar toolkit for dentists and GPs covering oral cancer.	National	140,473

<i>Centre for Mental Health</i>	Making work work: Extending Individual Placement and Support across England	Personalisation and Choice of Care and Support	This project, will establish Individual Placement and Support (IPS) services in 6 partnership areas (NHS Mental Health Trust and/or Local Authority), in the South East, East Midlands and Yorkshire & Humber regions, achieving paid jobs for 340 service users.	National	1,184,144
<i>Older People's Advocacy Alliance</i>	Older People's Cancer Voices	Personalisation and Choice of Care and Support	DH and Macmillan evidence states: "under-treatment of older people with cancer may be a substantial problem". They will build relationships in 4 areas in England between CCG's and advocacy organisations supporting older people affected by cancer (OPABC). They will produce best practice guidance and cancer advocacy support standards, and involve local Compacts and Macmillan Cancer Support, enabling greater opportunities for OPABC to influence service delivery through Healthwatch and Health and Wellbeing Boards promoting equality of opportunity along the cancer pathway.	National	273,870
<i>Royal National Institute of Blind People</i>	EIRECS - Early Intervention and Rehabilitation in Eye Care Services	Delivering Better Health and Care Outcomes	This project will ensure that every person experiencing sight loss benefits from early access to a nationally agreed eye care pathway, promoting independence, choice and control. They will address the risk of social exclusion, isolation, depression and loss of independence many blind and partially sighted people experience.	National	271,736

<i>Action on Hearing Loss</i>	Hear to Care - Improving long-term care and support for older people with hearing loss in care settings	Improving Long-Term Care and Support	The purpose of this project is to test out changes or improvements which can be made in mainstream longer term care settings to improve the diagnosis and management of hearing loss. They will test out changes in different areas including procedures around assessment, identification and recording of hearing loss, staff training and management of hearing aids and ensuring hearing loss is identified and supported in care transitions, e.g., admission to acute care.	North West, Yorkshire & West Midlands	202,716
<i>Fair Shares Gloucestershire</i>	Neighbourhood Support and Time Banking	Improving Long-Term Care and Support	To pilot the creation of neighbourhood support systems (neighbours looking out for neighbours), through small clusters of time banking, supporting older people and those with long term health conditions. Beneficiaries will be matched to a neighbourhood 'buddy' (or buddies) who will offer proactive help and 'keep an eye open' in addition to reactive assignments (particularly during winter).	South West and East Midlands	131,580
<i>Action for Blind People</i>	Action Talking Therapy Network	Delivering Better Health and Care Outcomes	The project will create and develop an emotional support and talking therapy network for blind and partially sighted people, their carers and families. The project has three key strands each informed by excellence from previous project delivery. They will:- Offer a face to face counselling service combining expert staff and volunteer delivery Provide all client-facing staff with 1st tier skills and	London, North West, East Midlands and South West	333,408

			<p>appropriate tools, deliver a 2nd tier emotional support service complementary to the 3rd tier face to face counselling service.</p> <p>Equip mainstream providers of counselling with expertise in sight loss support issues via development and delivery of bespoke training resource</p>		
<i>British Institute of Human Rights, The</i>	Care and Support: A Human Rights Approach to Advocacy	Personalisation and Choice of Care and Support	<p>Human rights information and support can be used in advocacy to help build and strengthen patient choice and control over their own care and support, providing a helpful framework for interacting with service providers. This partner project, led by BIHR, will build on the previously IESD-funded "Human Rights and Third Sector Health and Social Care" (innovation stream). Responding to the independent evaluation this next phase of the project seeks to embed and sustain human rights advocacy within care by developing tailored (and nationally replicable) supports with third sector partner organisations.</p>	North West, West Midlands, South East and London	275,122
<i>SignHealth</i>	Improving Deaf Patients' Experience and Access Through Telecommunications Technology	Personalisation and Choice of Care and Support	<p>The project will use telecommunications to give 680 Deaf sign-language users a much-improved patient experience and equal access to health services. Deaf patients will use innovative technology through which they can access remote interpreters almost immediately for conversations between themselves and health-care</p>	North West, South East and West Midlands	662,811

			professionals (where appropriate).		
<i>Hepatitis C Trust, The</i>	South Asian Hepatitis C targeted awareness raising, testing and support program	Delivering Better Health and Care Outcomes	The program proposes targeted awareness and testing events aimed at the South Asian community in mosques and other community centres, in partnership with community leaders and local health authorities. Their helpline and feedback from other projects shows that hepatitis C awareness is still lacking in the group and that appropriate test facilities are needed. The aim of the project is to encourage people to come forward for testing and reduce the incidence of liver disease in this group and reduce health inequality in access to services in the South Asian community.	National	93,200
<i>Age Concern Support Services (Yorkshire & Humber)</i>	Eatwell and Livewell	Improving Public Health	Our project will demonstrate the role of the voluntary sector and volunteers in the malnutrition pathway for older people. Local Age UKs will work with older people identified as having nutritional issues following a MUST (Malnutrition Universal Screening Tool) assessment either in hospital or primary care. Using an outcomes tool they will work with the older person and their carers to address the issues impacting on their diet (e.g. isolation, access to groceries, financial	Yorkshire and Humber	169,350

			issues).		
3VA	Health & Wellbeing Visit	Delivering Better Health and Care Outcomes	Health & Wellbeing Visits (HWV) is a new approach aiming to improve the health and well-being of some of the most vulnerable older people in our communities. Providing a strong public sector/community partnership that builds on well established effective working relationships, Health and Wellbeing Visits is a joined up solution to reducing health inequalities in some of our most health deprived neighbourhoods.	South East	296,210
<i>British Institute of Human Rights, The</i>	Delivering Compassionate Care: Connecting Human Rights to the Front Line	Delivering Safe and Compassionate Care	Recent failures in care, most notably at Mid-Staffordshire Hospital, Winterbourne View and others, have demonstrated the need for innovative approaches to ensure front line staff are equipped to deliver safe and compassionate care. Such care must be underpinned by an understanding of human rights, not only in terms of legal obligations but also what they mean in practice for front line workers. This project will seek to develop a replicable model to empower staff to deliver rights respecting services for those vulnerable patients which have been identified as most at risk of having their dignity compromised.	National	238,680

Note: Provisional award values total £11.3m and cover up to three years of funding from the Department, £4m of which will fall within the 2014-15 financial year.
